

48 Hour Guideline:

St. Paul Parks & Recreation will not support schedules or events that require youth football players to participate in more than one organized football game or scrimmage in a 48-hour time period. In addition, St. Paul Parks and Recreation strongly recommends that a team does not participate in more than one organized game or scrimmage vs. an opposing team during a 48 hour time span outside of our programs. Coaches and youth football organization administrators are asked to support this guideline for the safety and well being of our St. Paul youth football players.
